

User Guide For Scraper Pro Basic and Basic Scraper Pro Basic and Gold Scraper Pro Basic and Premium Version 3

Brought to you by www.ScraperPro.com & www.Easy1Up.com

Welcome to the Scraper Pro overview manual. This will be mostly screen shots because it is an amazingly simple piece of software. What Scraper Pro does is streamline the search process.

Scraper Pro does not hack into any site.

You simply type in keywords that you'd like to search for and what sites you'd like the software to go into and press start. It's that simple.

Screen Shot of Application and Description:

There are 3 versions of Scraper Pro. Basic, Gold & Premium

The basic version will search through Google, Alta Vista, Yahoo and Bing while the **Gold & Premium versions go into the above sites as well as...**

- 1) lycos.com
- 2) excite.com
- 3) ask.com
- 4) gigablast.com
- 5) webcrawler.com
- 6) dogpile.com
- 7) snap.com
- 8) thomasnet.com
- 9) kellysearch.com
- 10) globalspec.com

Premium Sites:

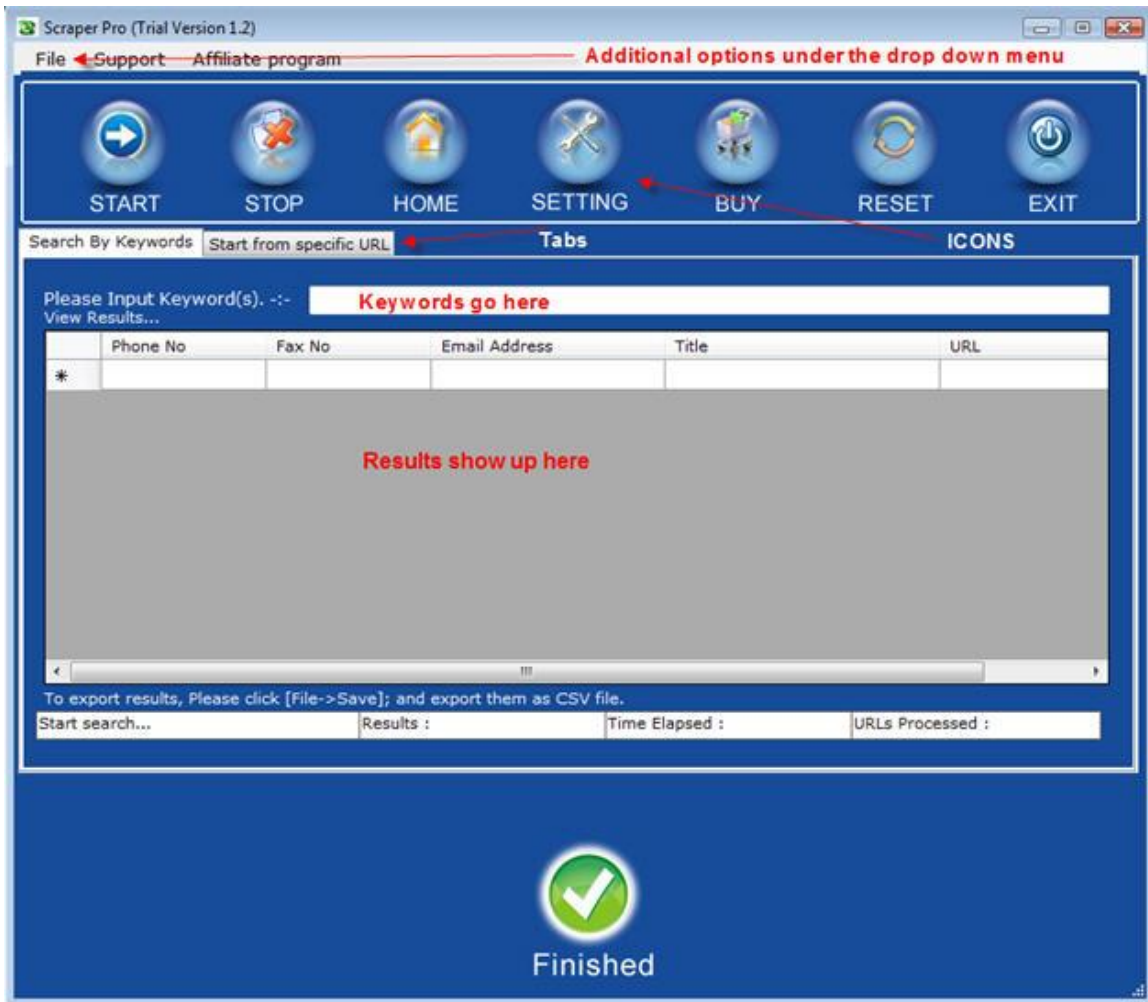

- 1) SuperPages.com
- 2) YellowPages.com
- 3) ServiceMagic.com
- 4) CraigsList.com
- 5) AdLandPro.com
- 6) MSN.com
- 7) BackPage.com
- 8) usfreeads.com
- 9) kijiji.com

Let's look at Scraper Pro Basic first.

All versions work virtually the same but the Gold version has many more options, filters and sites to search.

This is the basic screen you will see when you launch.

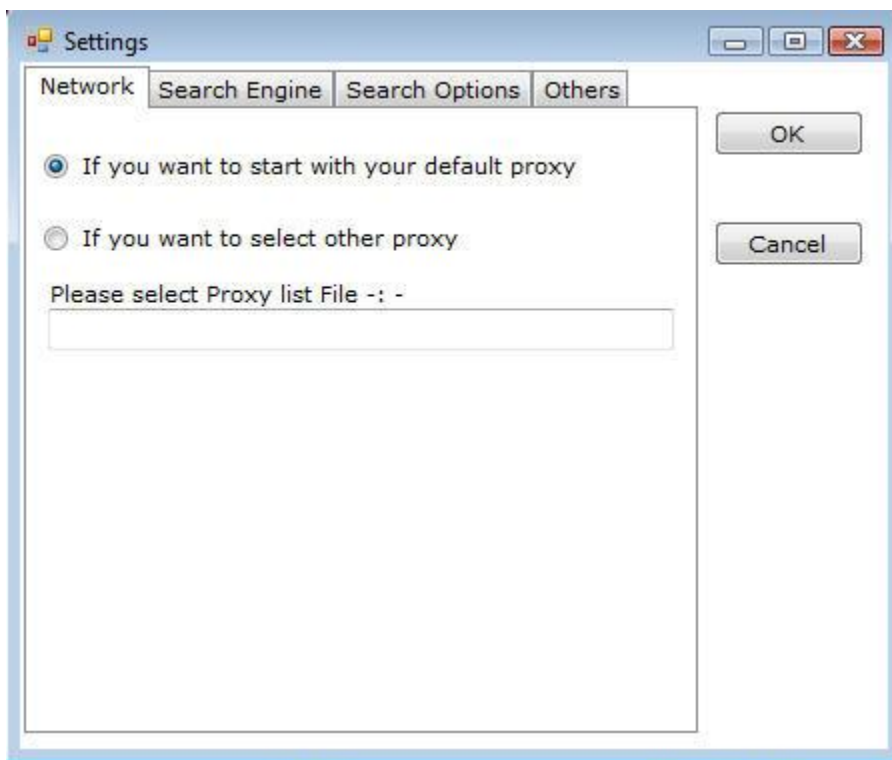

The first thing you should do is to click on the settings ICON to set up the software.

Settings Section

Network: Here User Select proxy file to use proxy in application.

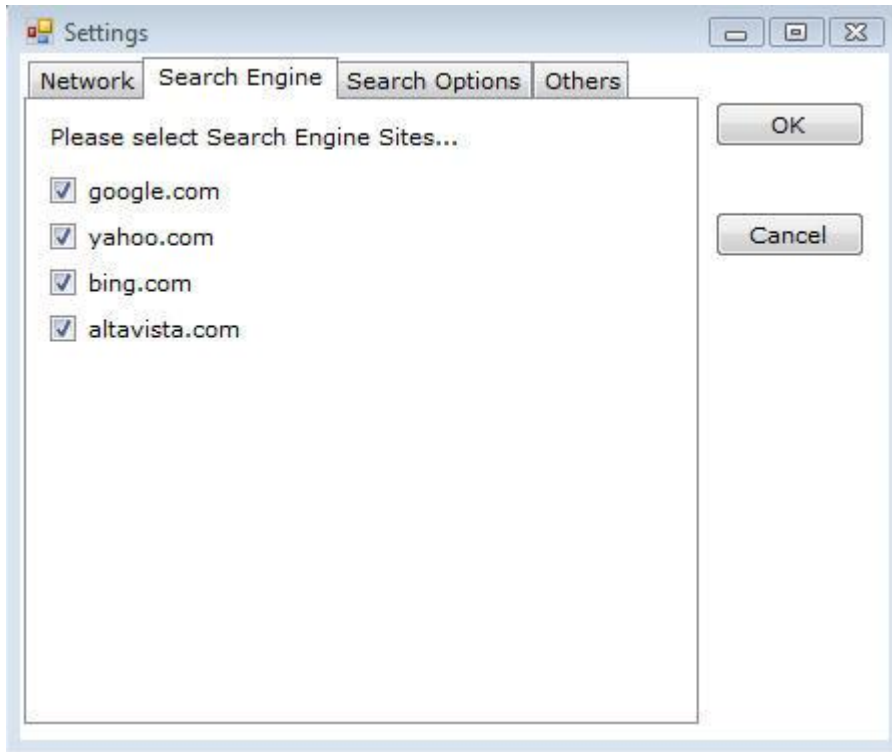

You would use this if you want to search anonymously. You will have to buy the proxy lists from applicable vendors on the internet.

Search Engine Tab

Here user can select search engine sites:

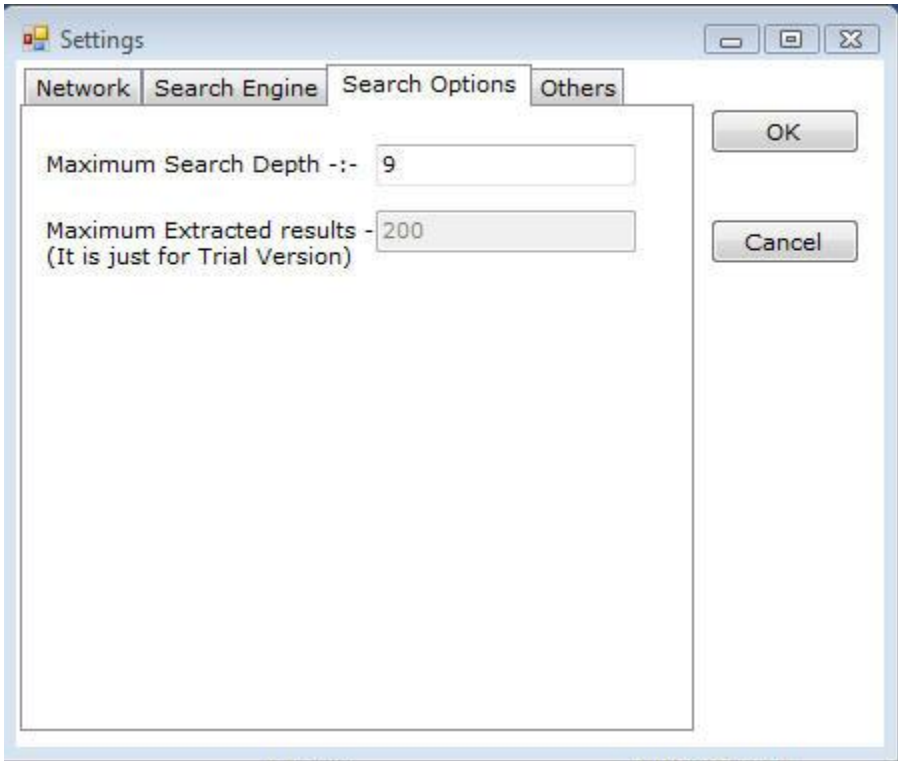

You can select any or all sites available. Then select OK to save.

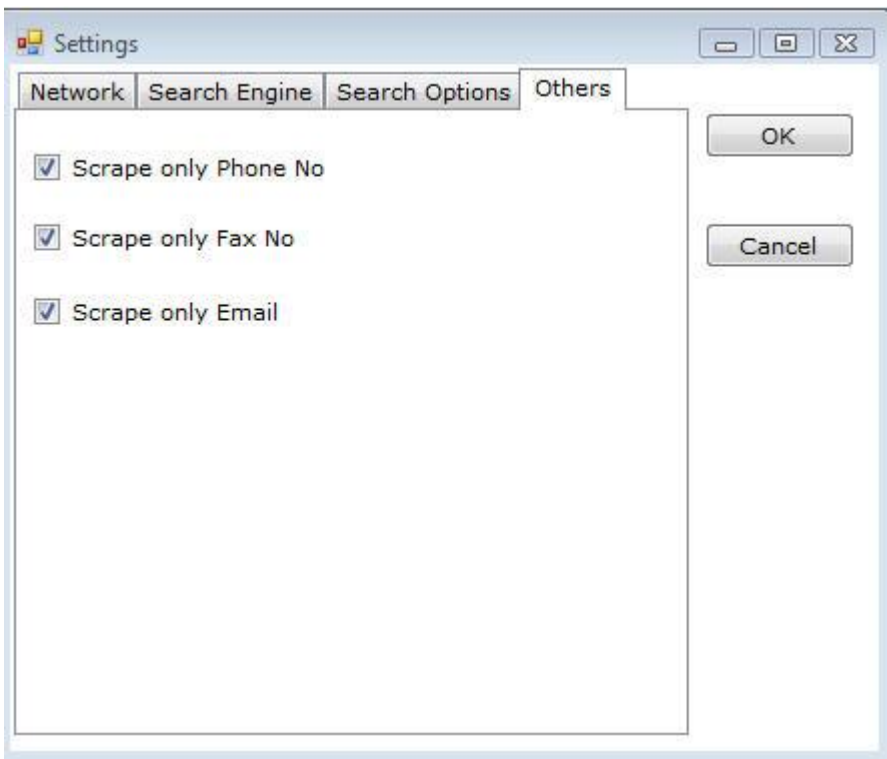

Search Options Tab

Maximum Search Depth: The most you can enter here is 9 which is how many pages deep it can search. This depends on the site as well.

Maximum Extracted results is only applicable to trial version

Others: Here User Select if Scaper Pro will pull whatever phone, fax or email combination you want.

Once you enter your keyword you can start the search. As the results start to come up, you can export the results to a CSV file format.

The screenshot shows the Scrapper Pro (Trial Version 1.2) interface. The 'File' menu is open, highlighting 'Export and Save'. A red arrow points from this menu item to the 'Export results here' button in the search results area. The search results table is as follows:

	Phone No	Fax No	Email Address	Title	URL
▶	650-253-0000			YouTube- TVI EXPRESS -- Why...	http://www.youtube.
	1255414457			Easy Ways To Make Money: Sit...	http://tviexpress.wik
	706-866-2295	Fax: 706-861-7936		TVI EXPRESS - What is TVI EX...	http://www.ideamark
	303-710-5470		bobhughes52@gmail.com ...	Top TVI Express Team	http://toptviexpres
*					

At the bottom of the window, a status bar shows: Start search... Results : 4 Time Elapsed : 0:0:54 URLs Processed : 110. The word 'Running' is displayed at the bottom center of the application window.

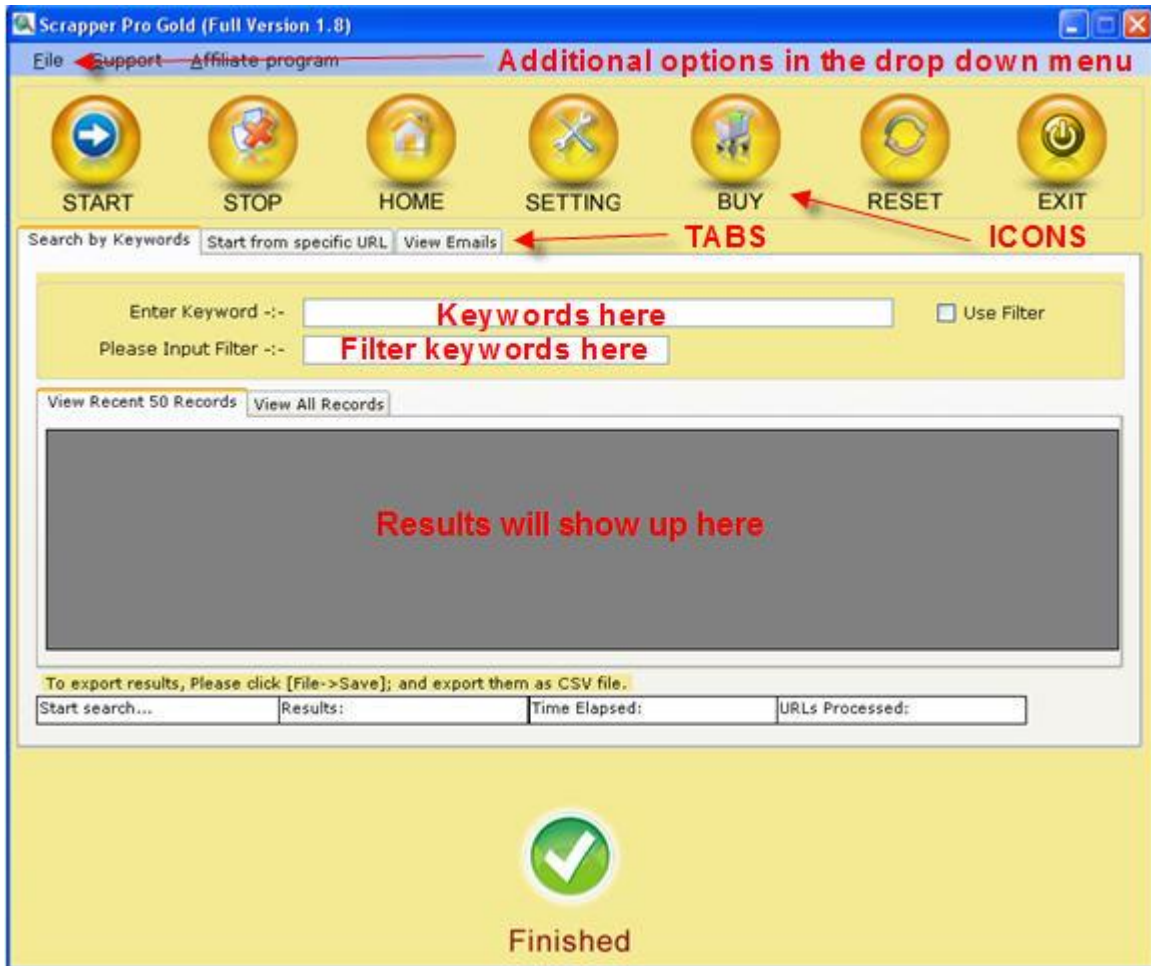

You can also use the Start from specific URL Tab which is in the middle of the screen.

Should you decide that you need to log in, you can do so and the middle part of the software will show the site to log into.

Scraper Pro Gold

The Gold version also has many additional functions to it as well. So let's go into the Gold version and show you its functions.

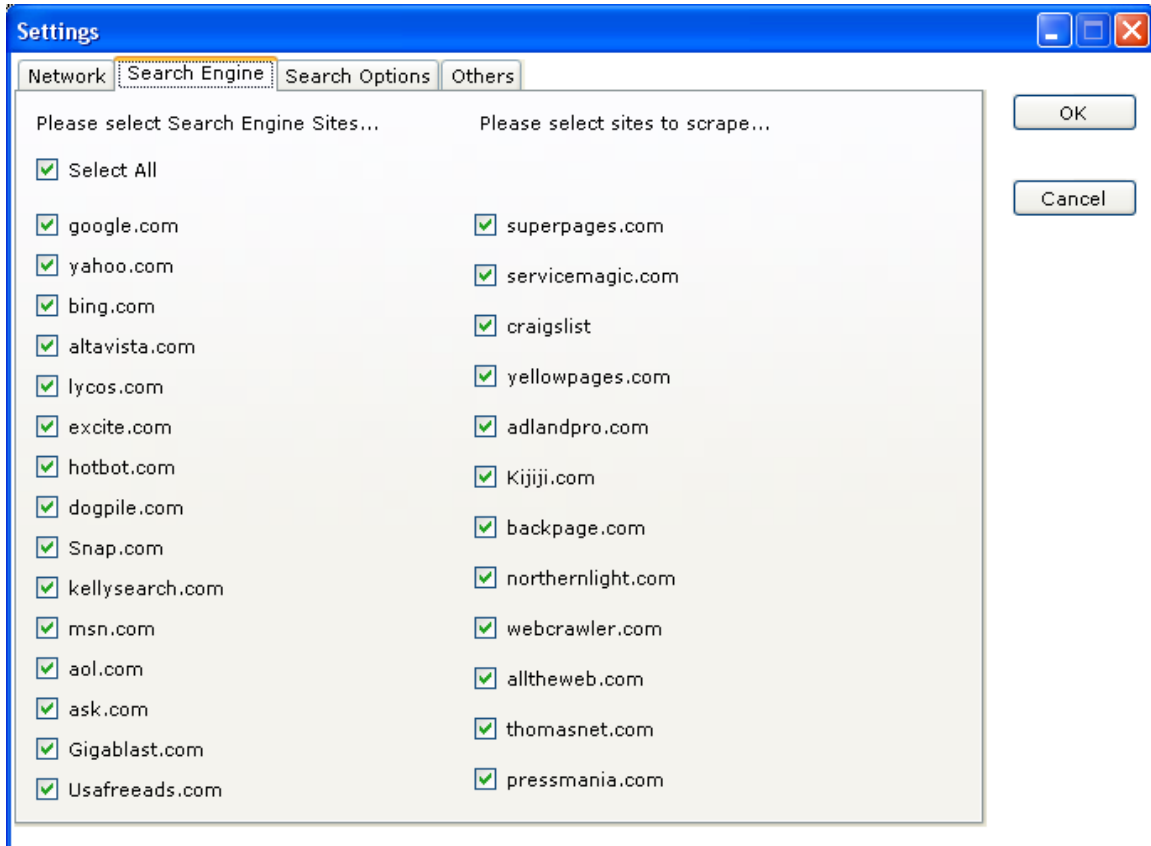

This is the basic screen you will see. Here user can input keyword and click on start button. However before you do that you should click on the setting icon.

Settings Section Search Engine Tab

Here user can select search engine sites

You can select any or all sites available. Then select OK to save.

Pressmania.com and servicemagic.com may not provide accurate results.

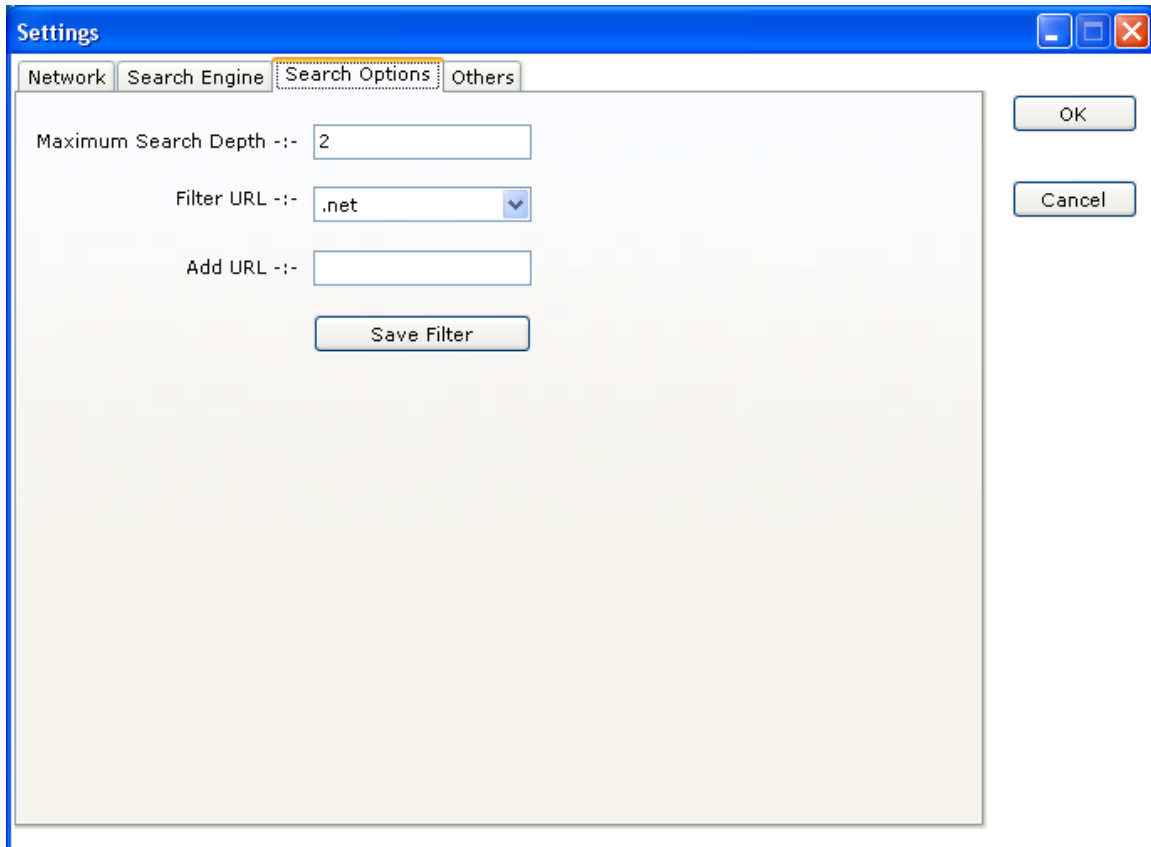

Search Options Tab

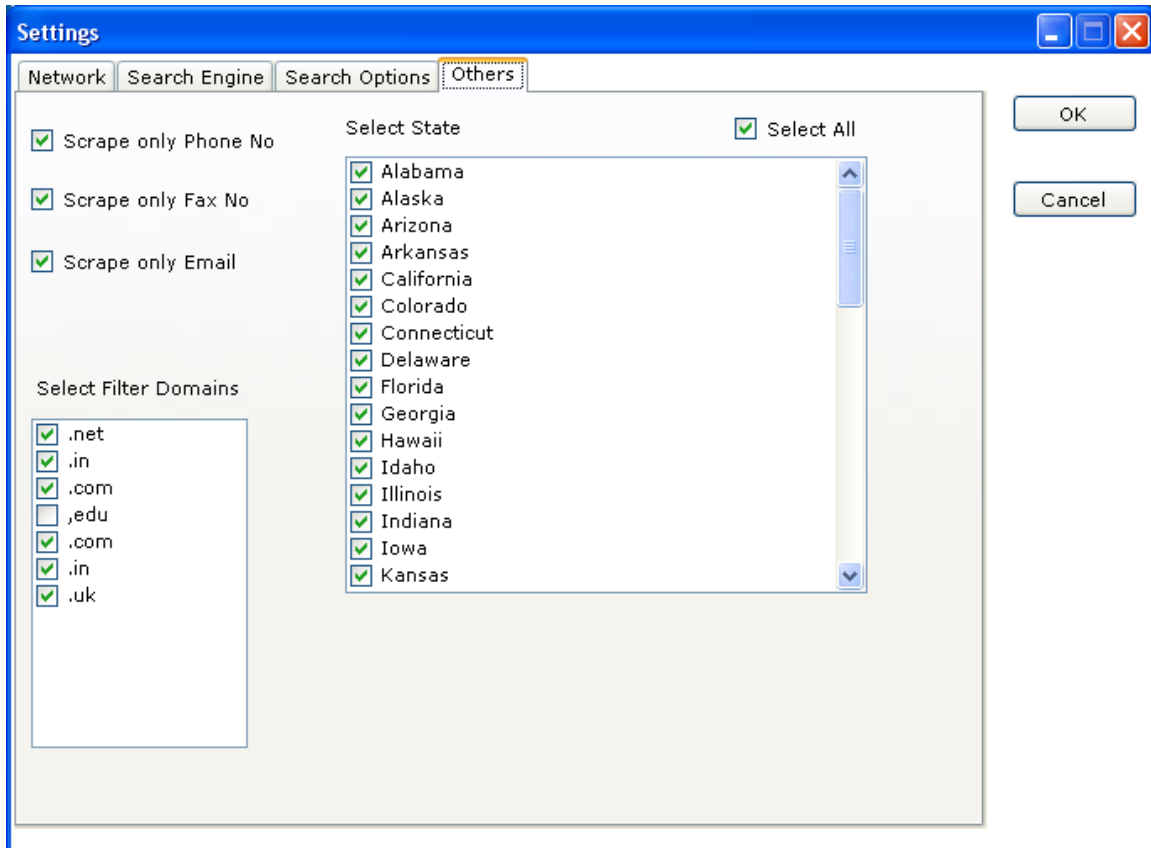

Maximum Search Depth: The most you can enter here is 9 which is how many pages deep it can search. This depends on the site as well.

Filter URL/ Add URL:

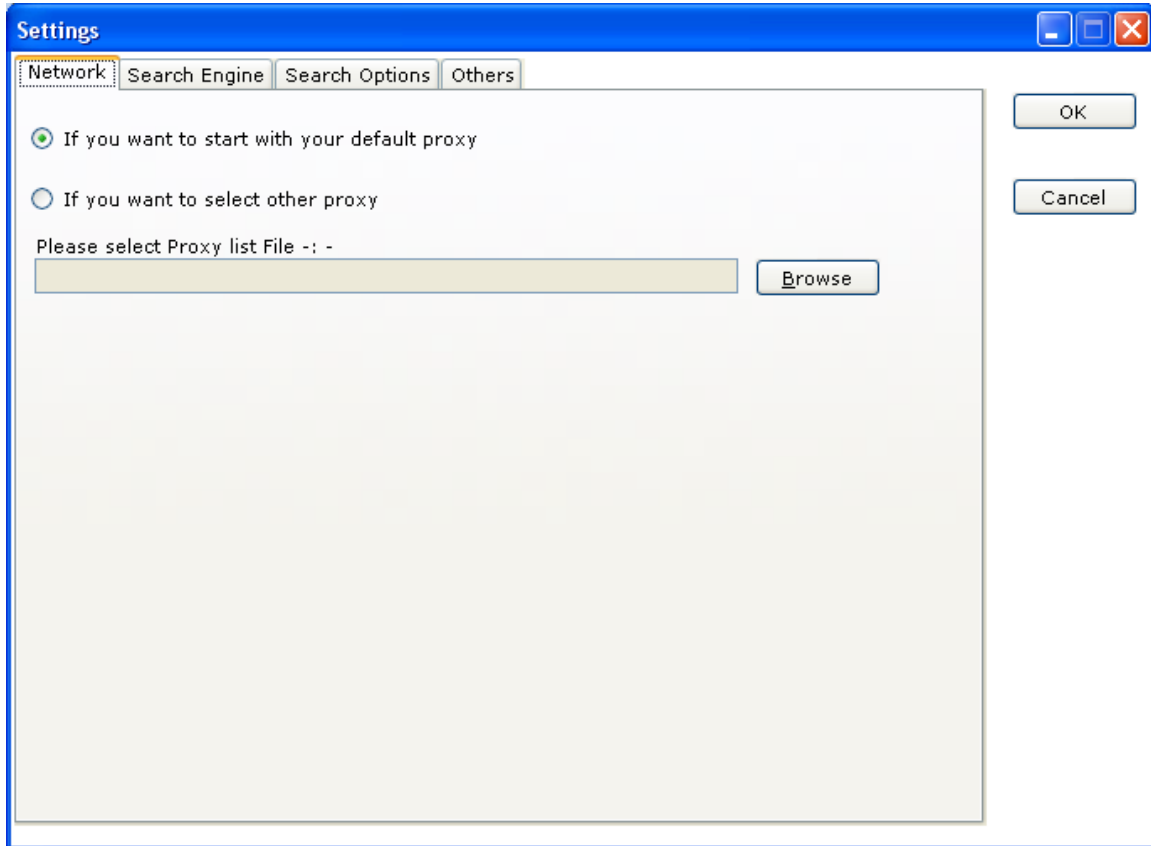

Here you can enter the type of URL extension of sites that you do not want to search for such as .gov, .edu, .mp3 etc

Others: Here User Select Filter domains and select state and if Scrapper Pro will pull whatever phone, fax or email combination you want. You can also select the filters that you DO NOT want to search for that you entered in the search options.

Network: Here User Select proxy file to use proxy in application. You would use this if you want to search anonymously. You will have to buy the proxy lists from applicable vendors on the internet.

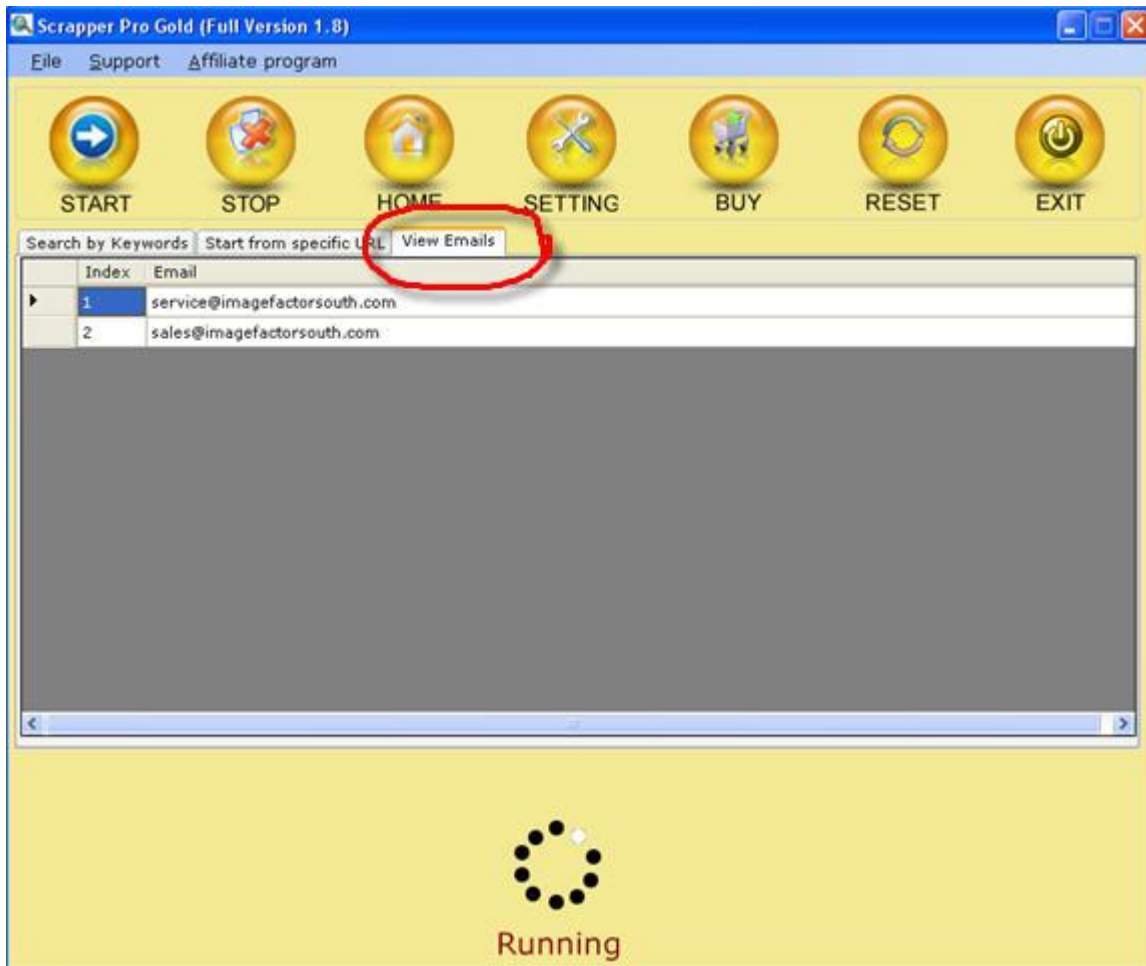

On the main application, while searching, you may get records that have multiple emails on one record. If you highlight the record and click on the View Email tab you can then view all the emails for that record.

Click on email and email address display in new tab view emails here.

View Emails Here ...

Here user can see email address.

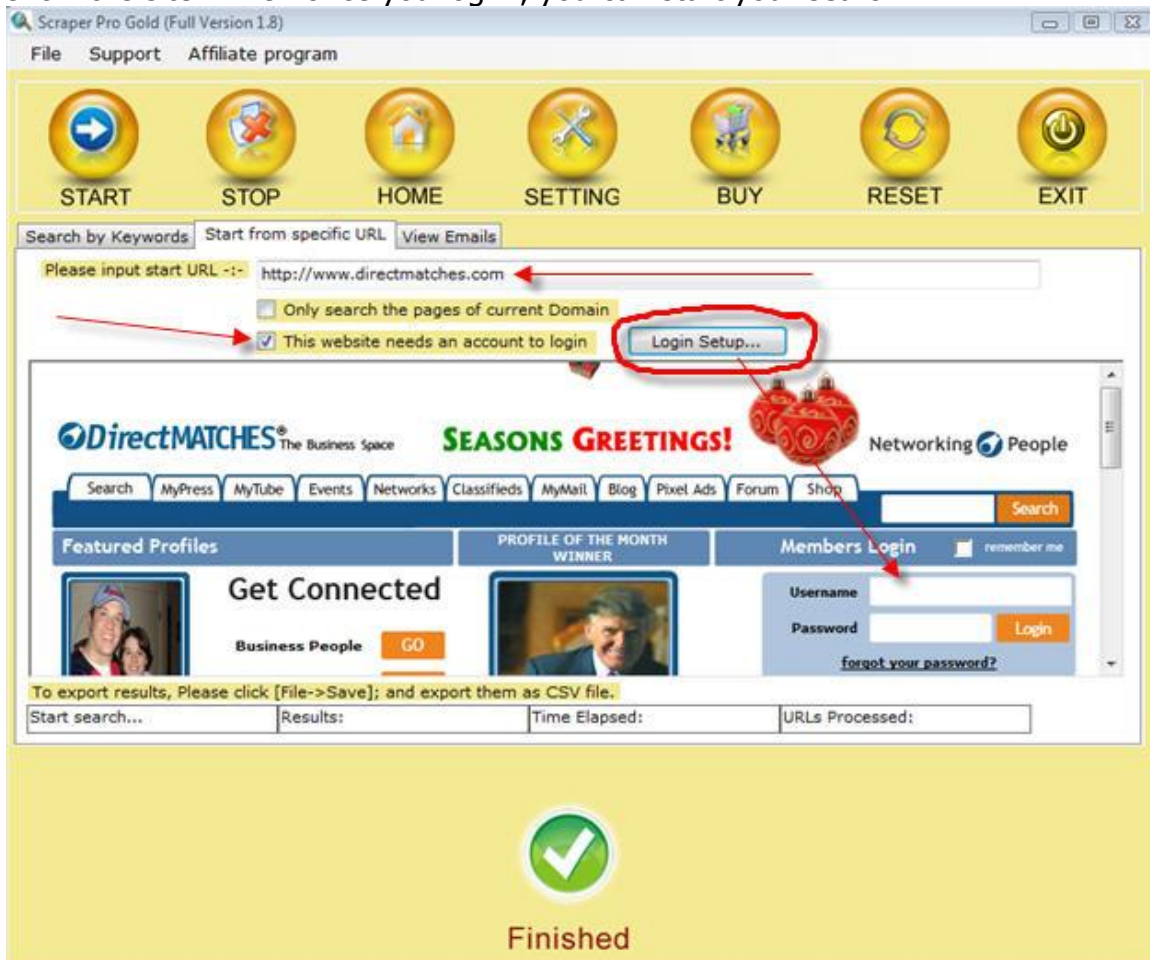

After getting results user can export results in csv file.

You can name of output file and click on save button

Starting from a specific URL

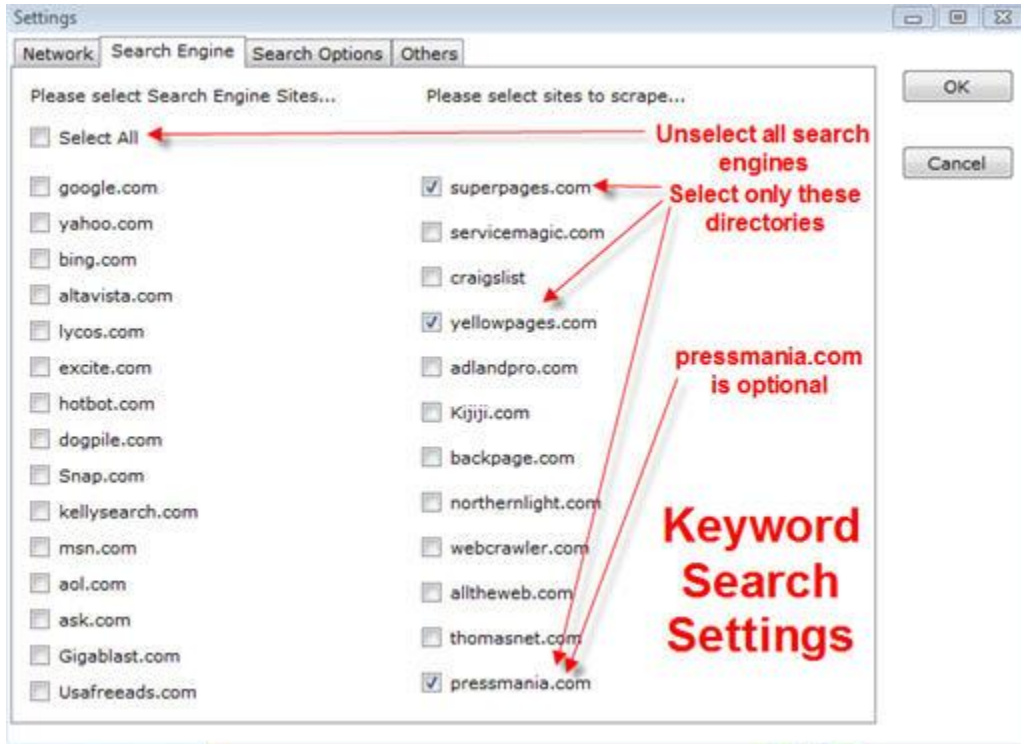

If you want data from some url, you then enter url where it says **“Please enter start URL”** and click on start. You, also have the option of selection on not selecting the check boxes below. If you need to log into the site before starting the search then you can log in and the screen on Scrapper Pro will change to show the site. Then once you log in, you can start your search.

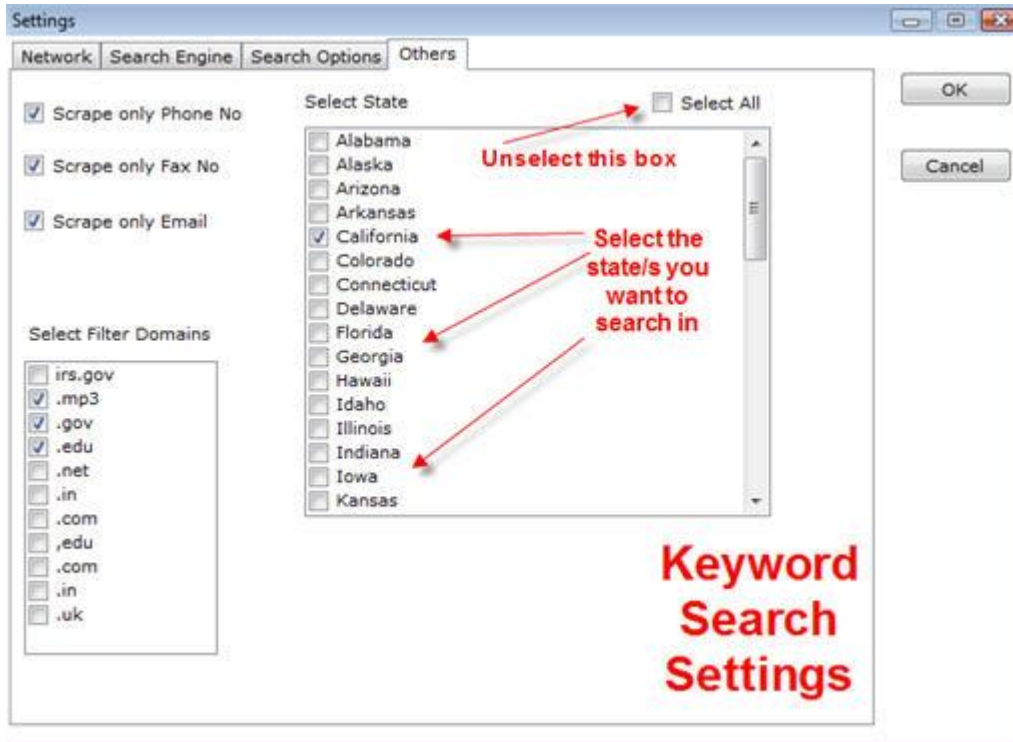

Searching by Directories

You may want to look in specific states for Lawyers, dentists, real estate etc. No problem. Here is what to do.

Log in and click on the settings ICON. Then go to the Search Engine Tab. Unselect all search engines by unchecking the Select All box. Then check off the directory sites you want. Most will choose Super Pages and Yellow Pages.

Then go to the Others Tab and uncheck the Select all box there too. You will unselect all stats. Then check off the state or states that you want to look in. Once done, select OK to save.

Then go to the main screen and type in the search term you would like to look at like lawyers, dentists etc. In the screen shot below, I types in the word lawyer. Once done, select file > save and you are all set.
